W. W. VARN IS SET AT LIBERTY IN MEXICO.

Supreme Court of Durango Finds Act of Former 23 Persons in Self Defense.

A special telegram to the San Antonio Express from Torreón, Mexico, says:

William W. Varn, who was held in connection with the shooting and killing of E. E. Miller on their ranch near Tepehuanes, in the state of Durango, has just been released from prison, where he has been confined in the city of Durango since his arrest immediately following the shooting. According to the finding of the Durango supreme court, Varn has been absolved from all guilt, as the testimony was sufficient to prove that he acted in self-defense.

The shooting occurred on Wednesday afternoon, April 26, of last year. Both men were well known Texans. On the day of the shooting the two men left their house together apparently on friendly terms. About an hour after their departure on horseback Varn returned alone with one of his hands shattered to pieces. He said that shortly after leaving the house he and Miller became involved in a dispute over some timber lands which they had arrived at a point known as Canada de los Bueyes the argument had become heated, and that Miller tried to kill him, whereupon he shot Miller.

Varn accompanied the officers who were summoned from Canatlan to the spot where the shooting had taken place. The body of Miller was found where it had fallen. The bullet had entered the region near the heart, and death was evidently almost instantaneous.

The officers took Varn to Durango, where he was kept in confinement until the supreme court handed down the decision which gave him his immediate liberty.

NOGALES GAS COMPANY MEETS WITH SUCCESS.

Distributing System Will Embrace Over Six Miles of Main—Big Demand on Mexican Side for Gas.

Nogales, Son. Mex., June 29.—The Nogales Gas company, which started to supply gas on April 1, is meeting with much success, and the demand for gas on the Sonora side of the line augurs well for gas enterprises in Mexico. Two miles of mains have been laid in the Sonora town in the last three weeks, and house connections are being made constantly. In all there will be about six miles of mains for the distributing system and the plant will represent an investment of \$50,000.

The capacity of the plant is 80,000 cubic feet in 24 hours. The Darling process of manufacturing gas from fuel oil is used, and Oklahoma oil is purchased from the Texas Oil company. H. W. Kelsey and Dr. W. F. Cheneveth, of Nogales, are principally interested in the enterprise.

Vandercreek & Kilmer have the contract.

S.S.S. CURES RHEUMATISM

No case of Rheumatism was ever cured except by a thorough purification of the blood; just as long as the blood remains charged with fermenting uric acid poison the painful disease will continue. The pains and aches of Rheumatism are only symptoms, and it is true these may be scattered and temporarily relieved by the application of plasters, liniments and home remedies of various kinds, but the person who tries with this dangerous disease by depending on local treatment alone is bound to pay for the mistake with constant suffering, later on. S. S. S. cures Rheumatism in the only way it is possible to cure the disease. It goes down into the blood and removes the uric acid from the circulation, so that the nerves, bones, muscles and joints are all lubricated and fed with nourishing matter. Instead of being continually irritated and inflamed with the sharp, uratic impurity. When S. S. S. has cleansed and purified the blood the pains and aches cease, all inflammation disappears, stiffened muscles are made supple, and every miserable symptom of Rheumatism is corrected. Book on Rheumatism, and any medical advice free to all who write.
